

Tic Tac STEAM

(Must complete 3 in a row, column, or diagonal)

#2

Shadow Puppets

Create shadow puppets using paper, tape, and popsicle sticks. Record a video with lights off using a flashlight.

World Tour

Create your own Google Earth Project to tour famous locations around the world

Parachute

Use materials at home to create a parachute for a small toy. Try to slow your falling toy by 2 seconds.

Paper Rocket

Build a rocket out of just paper and tape. How far can it fly?

Alien Life

Use Sketchpad.io to draw an alien. Write a story about how that alien survives on its planet.

Solar System Model

Using items around the house, or a tech tool like Tinkercad to create a model of the solar system.

Escape to Mars

Draw and label your own Mars metropolis. Make sure to include everything one would need for survival.

Sounds from Space

Using a digital tool, create a digital version of a character from a story.
(Google Drawings, Google Canvas, Sketchpad 5.1, Paint)

Create a Rock Collector

Use materials around your home to create a device that can collect rocks and move them somewhere else.
